& PERSONALISED CUSTOMER EXPERIENCES

Top Indonesia
BESPOKE TOURS & ACTIVE HOLIDAYS

TOP INDONESIA HOLIDAYS

We are an experienced Destination Management Company. We craft travel products based on individual interests, engaging travelers in sustainable tourism activities for pristine nature exploration and promoting local cultures.

OUR STORY

Top Indonesia Holidays was founded in 2009 by Sugeng Suprianto, a well-known and respected Indonesian travel professional. He started his career as a hotelier worked for ten years at the Four Seasons Hotels, a two-year stint with a cruising business, and he became the general manager of a leading Bali based Destination Management Company.

Sugeng introduced the inspiring concept of personalized travel services, providing tailor-made travel solutions to the specific demands of our clients and realistically matching their diverse passions. Whether the request is for a couple, family or incentive groups, for nature trekking, volcano hiking, scenic biking or liveaboard diving or cruising at sea, the team is ready to offer an exceptional design of superb quality.

We brought together a small team of dedicated professionals who enjoy doing what they know best and built extensive networks to empower local experts such as tour guides, drivers, divers, artists, volcanologists and other experts, including architects, archaeologists and NGOs.

Indonesia has one of the most diverse biological countries on Earth. As an avid sailor and experienced diver, Sugeng actively explores Indonesia's seascape and landscape to enrich destination knowledge, and he takes pride in sharing what he knows the best, designing travel experiences beyond expectations.

Top Indonesia Holidays has grown substantially through word of mouth and focuses on Business to Business (B2B), working with luxury travel clubs, concierge companies, adventure travel, and Tour Operators worldwide.

“Our mission is to connect travellers with local experts, engage them in cultural activities to improve their economy, promote Indonesia’s natural diversity globally, and participate in nature conservation and sustainable tourism developments.”

WHY Top Indonesia

“DEEP DESTINATION KNOWLEDGE”

Indonesia offers multi islands destinations with complicated landscape options. A knowledgeable travel partner is essential. We offer in-depth destination know-how and understand that destination management must never slide into the routine but crucially depends on intelligent people who give thoughtful answers and make proactive suggestions.

“CUSTOM MADE EXPERIENCE”

We brought together a small team who enjoy doing what they know best: providing tailor-made solutions to the specific demands of our clients and always realistically matching the right travel solution to the expectations.

“PERSONALIZED ASSISTANCE – HOW DOES IT WORK?”

The first step? Top Indonesia Holidays will always answer your emails, sometimes by asking clarifying questions, to help construct a more meaningful response. Ideally, clients can take advantage of a no-obligation, free-of-charge conversation with Sugeng Suprianto, or a senior staff member, using computer or smartphone communication links (e.g., Google, Skype, Zoom, or WhatsApp). These links are a convenient way for Top Indonesia to know their client better and obtain insights that will help them prepare a perfect Indonesian travel itinerary

“AN UNRIVALED INDONESIA TRAVEL NETWORK”

Three decades of professional travel planning have allowed *Top Indonesia Holidays* to develop an unrivaled network of attractive destinations and supporting travel operators. While adding to their extensive knowledge of hotels, transportation providers, yachts, private jet operators, and local and regional tourism officials. Years of sending thousands of visitors to every corner of the archipelago have resulted in close working relationships with Indonesia's best operators while assisting them in developing their products to meet the requirement of increasingly sophisticated travelers.

“WORKING IN A POST-PANDEMIC WORLD”

Like much of the world, Indonesia is slowly emerging from a pandemic that brought untold hardship to many Indonesian tourism companies. Because of this, Indonesia Top Holiday routinely reviews all accommodation providers, transportation operators, restaurants, and attractions to ensure that the highest quality of services they expect from trusted suppliers have been maintained for use during any coming journey.

LUXURY,CHARMS & BOUTIQUE ACCOMMODATION

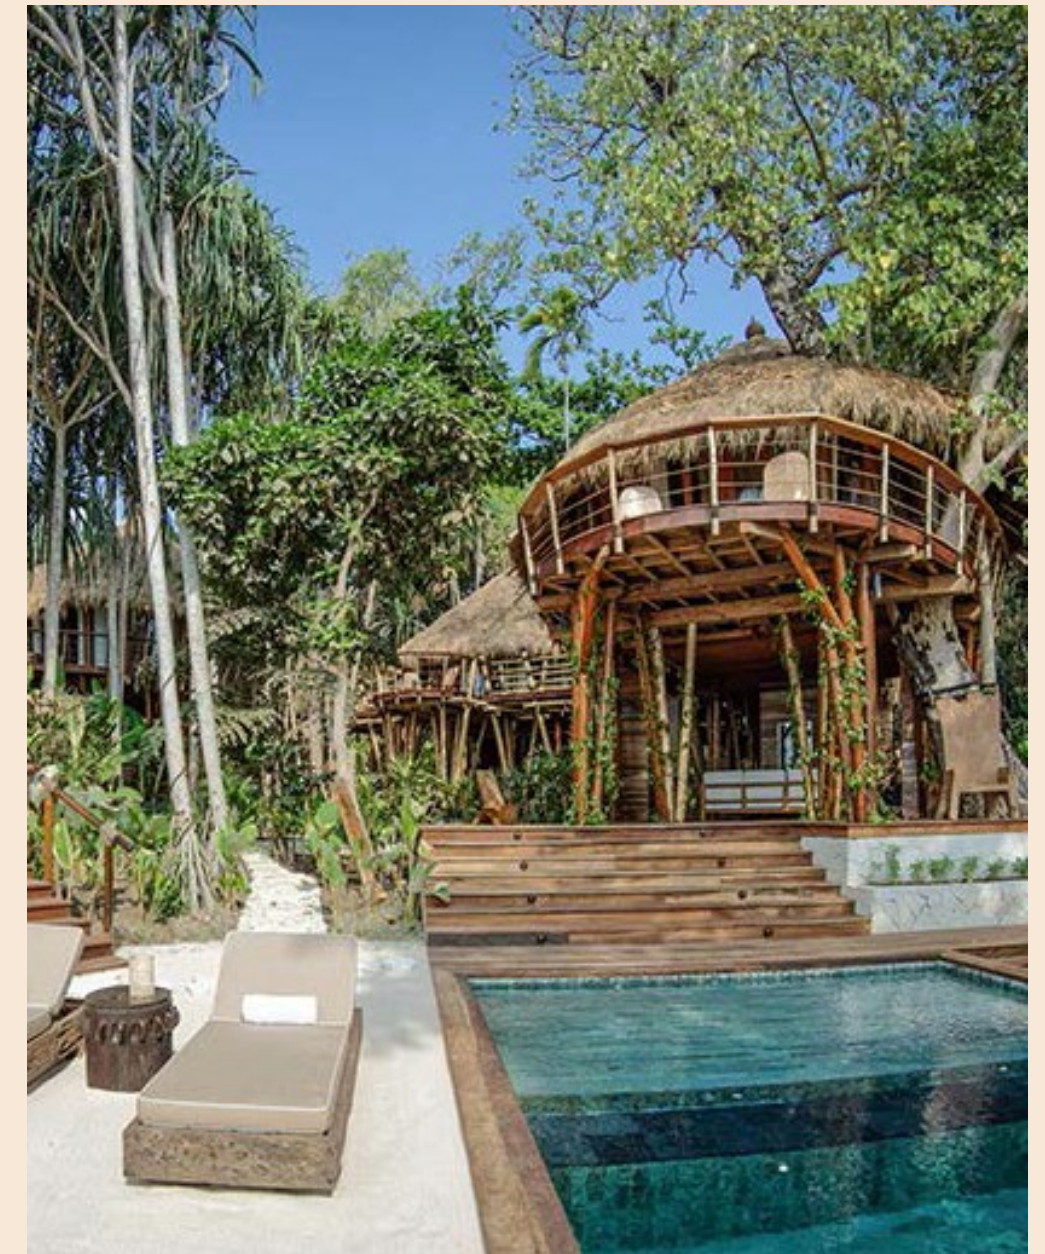

Indonesia offers some charming accommodations. We have selected and tested those that make up the top-of-the-line with the best options, either luxury brands, sustainability antique houses, bamboo huts or private villas

CRUISE & YACHT

There is no better way to experience Indonesia's diversity and authentic tranquility than to travel by sea. It offers a privileged look at some of the most beautiful and remote corners of the country and a chance to meet lovely people with their incredible culture who live on pristine shores that are difficult to reach by road. Indonesia was made to go island hopping, and when you go sailing, each day and each island offers a different fascinating landscape and seascape.

We build cooperation with yacht operators for their product value, high level of service, comfortable interiors, safety, and a delightful culinary experience. Explore the Komodo National Park, Surfing trip to the Spice Island route through to pristine islands and remote reefs of Raja Ampat. In addition, we also organize a day cruise for diving, sport fishing, ocean rafting, jet skiing and more.

Allow us to organize the journey so you can experience colorful local cultures and access world-class dive or surf options.
